Principal’s Report

Roosters AFL Visit
On Friday there was a lot of excitement at school around 11am as three players from the Roosters first grade team came to the school to talk to students in Years 1 – 6. The school captains and vice captains performed their first duties as school representatives by welcoming the players to Blue Haven Public School. The players talked about the importance of a healthy lifestyle and ways students can live a healthy life. The students asked the players lots of questions about themselves and everyone enjoyed meeting the players.

Attendance Codes
Parents or carers of children of compulsory school age are responsible for ensuring their child attends school every day. The Minister for Education has approved changes to the use of the Attendance Register codes for 2015. One of the changes is to the approval of leave taken for holidays during school term. Families are encouraged to take leave during school holidays but if holidays are taken during school term parents must now write a letter to the principal requesting that leave be approved for the period of the holiday. Holidays taken during school term will no longer come under exemption from school.
If you have any questions about school attendance please do not

**Road Safety**
A child’s perception, judgement and awareness of potentially dangerous situations is generally not sufficiently developed to properly cope with the road environment until they are at least 10 years of age. Children need adults to set a good example and to supervise them closely in and around traffic, including roundabouts, traffic lights and car parks. Children can be unpredictable and hard to see. It’s important that parents and carers observe local school safety initiatives when dropping off and collecting children.

When arriving and leaving the school remind your child that crossing the road should always be done with care. Important things they should remember are:

- Always cross the road at a pedestrian crossing
- Always look right, then left and right again before crossing the road to check there are no cars coming.

**P & C Meeting**
Our first P & C meeting for the year will be held on Wednesday 18th February at 6.30pm in the school staff room. Everyone is welcome to attend.

**Jargon buster**
Wondering why your kids talk about playing under the school COLA? Baffled at parent-teacher discussions about KLA's? This list of common abbreviations or terms will help you to become familiar with the world inside school.

**Helping your child with homework**
How do you help your child while allowing them to develop independence? **Teachers talk** about how parents can help kids take responsibility for their homework and avoid Thursday night meltdowns.

**February is Ovarian Cancer Awareness Month**
During this time Ovarian Cancer Australia informs women of the risks and symptoms of ovarian cancer.
Did you know there is no early detection test for ovarian cancer? Do you think your family and friends know this and the risks and symptoms of ovarian cancer?

**Blue Haven Public School** will be hosting an **Afternoon Teal** to help raise awareness of ovarian cancer and raise funds for Ovarian Cancer Australia’s support and research programs. Afternoon Teal will be held on **Wednesday 25th February** in the school library. Please mark this date on your calendar.

Baby sitting will be available and there will be a short informational presentation. Gold coin donation on entry would be appreciated. We will also be having some raffles which will be drawn on the day.

Ovarian Cancer ribbons are currently on sale in the school office for $2.00. Raffle tickets will be sent home today they are $1 each. Please return to school by **Monday 9th March**.

Thank you for your support.

Blue Haven PS Skoolbag!

The simplest way
to get your vitamin D!

Did you know?
- Our bodies make vitamin D when skin is exposed to sunlight.
- We need vitamin D as well as calcium to maintain good health; in particular to keep our bones and muscles strong and healthy.
- Always use sun protection when UV levels are 3 and above.

Does sunscreen stop vitamin D?
- Sunscreen filters out most but not all UV radiation.
- People who use sunscreen regularly when UV levels are 3 and above, don’t have lower vitamin D levels than people who do not use sunscreen.
